Leadership education program in the United Private Schools

Educational institutions are increasingly recognizing the significance of a well-rounded education that encompasses all dimensions of an individual's personality. In line with this belief, they are now embracing the integration of leadership education from an Islamic perspective, focusing on its distinct characteristics and valuable skills.

Recognizing leadership education as both an art and a science, the UPS has introduced its own program to cultivate this crucial skill. The program defines leadership as the capacity to inspire and guide individuals towards a shared objective.

The philosophy behind the leadership education program lies in the integration of Quranic principles into each unit of study. This philosophy comes to life through practical training and field visits, aiming to empower a generation that can make informed life decisions skilfully. By combining the timeless guidance of God with contemporary educational principles and modern leadership values, the program strives to shape well-rounded individuals.

The primary objective of all units within the program is to nurture and amplify inherent leadership qualities. These qualities have the potential to flourish or dwindle based on the influences of family, school, and society, as supported by extensive research studies.

Leadership encompasses several essential roles, including empowerment, motivation, driving change, intervention, and training. Therefore, there is a critical need for leadership education that not only cultivates innate talents but also provides training and development opportunities. This need is particularly urgent considering the current crisis in leadership education and the decline in moral values.

In the era of advanced science and technology, knowledge-based economies, and promising future prospects, it is imperative for leaders to possess the essential qualities, charisma, and competencies of effective leadership. This ensures their ability to adapt and seize the opportunities that arise in this rapidly changing landscape.

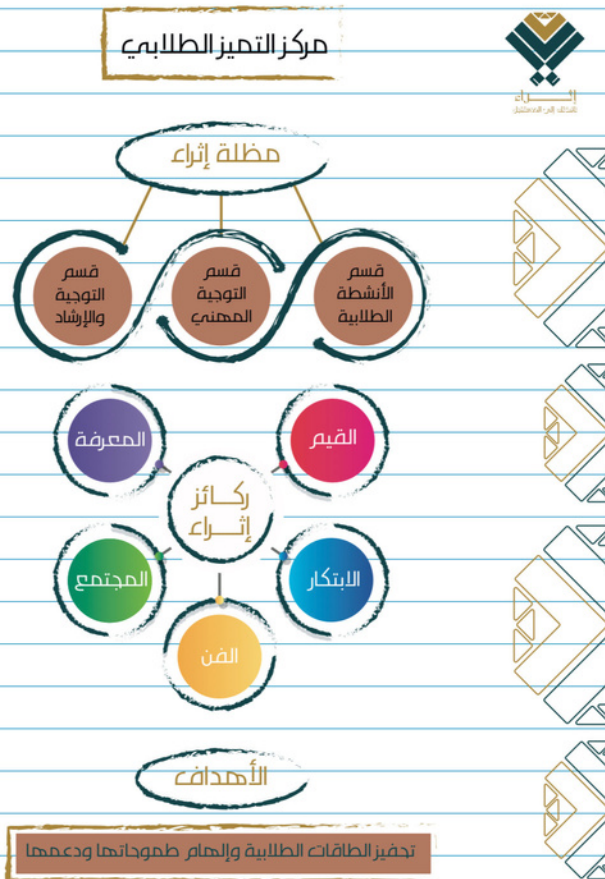

DR. Fathiya Al Saadi

Director of Quality and Development

Student Activities: (Enrichment), your window to the future

A Chinese proverb says: “Tell me and I will forget, Show me and I may remember, Involve me and I will learn.”

Undoubtedly, classroom education plays a crucial role in fostering the intellectual development of students. However, it is equally important to recognize the significance of other elements that contribute to their overall personality growth. Instilling values, nurturing a well-rounded character, and fostering creativity are vital aspects that can be nurtured through a diverse range of activities. By incorporating these activities alongside the existing curriculum, a harmonious balance can be achieved, ensuring comprehensive development in students' lives.

Student activities are considered an effective and essential part in the development of relationships, social, and moral values through practical experiences, such as, field trips, local environmental services, and volunteer work. It offers wide, well organised and purposeful opportunities to develop and document human relations between students and to provide them with the habits, skills, and values necessary to continue education, and to achieve good citizenship for students.

Throughout the year, the School's Student Activities Department adopts a comprehensive and diverse plan of programmes and events that suit students' tendencies and interests. During this year, the department introduced a unified programme that includes the three departments: the Student Activities Department, the Career Advice Department, and the Advice and Counseling Department, under the umbrella of Enrichment. The idea of the programme is based on giving member students the opportunity to reach their developmental goals and document them in a single file, containing all the events and competitions in which they participated in throughout the academic year. The most important objectives of the programme is to highlight the creativity and uniqueness of students who excel in school activities, and encourage them to keep their achievements and extracurricular participation in memory.

As for developing talents and discovering creativity among students and teachers, and as an affirmation of the department's mission - to provide a school environment that promotes positive behaviour and Islamic values, and that science and morals are two sides of the same coin - the department announces the launch of two new awards next year: "The Teacher with Values Award" for teachers and "The Ethics Award" for students; in order to encourage and honor the best initiatives and practices that promote Islamic values and national identity.

Ms. Maisa Al Ismaili

EVENTS

Awards Evening Ceremony

Gaining quests does not happen through wishing; rather, with hard work, the whole world can be taken.

UPS has rewarded its students who achieved outstanding results in the first term of the academic year 2022-2023. This honor comes in appreciation of the efforts made throughout the term by all students, their parents and teachers. This was an affirmation of the collaboration and cooperation between the school and home by contributing to offering a learning environment that promotes raising students' levels. This honor gives an incentive to exert more effort and fulfill dreams and aspirations amongst students.

Fourth Reading Festival

The dearest place in the world is a traveling vehicle, and the best companion of all time is a book.

The Reading Festival is an annual event that the school is keen to organise regularly; With the aim of raising the level of intellect and creativity among students and bringing them closer to sciences, as well as offering a conducive environment through a variety of activities. The festival included cultural and artistic activities, workshops and competitions. The most prominent of which was the UPS Reader Competition. The slogan of the 2023 festival was: Reading is a free travel.

EVENTS

GLOBAL VILLAGE

"O people, indeed We created you from a male and a female, and made you into nations and tribes so that you may know one another. Indeed, Allah is All-Knowing, All-Aware (13) Al-Hujurat

This year, UPS initiated yet another school event called Global Village Day. On this day, we acted as global citizens by representing different countries. This event provided an ideal opportunity to learn about different traditions and cultures around the world. Many skills were revealed and developed among our students, such as research skills, teamwork, event organisation, leadership qualities, and creativity. It was really a fun, informative and fulfilling day.

STEM FESTIVAL

United Private Schools recently hosted its inaugural STEM Week Festival, showcasing the school's commitment to science, technology, engineering, and mathematics education. The festival celebrated unity and collaboration among students and teachers, with impressive projects in robotics, architecture, coding, and more. The event provided an opportunity for students to display their creativity, critical thinking, and problem-solving skills. UPS continues to prioritise excellence and foster a passion for STEM education among its students.

(Hundreds of projects on display, Live experiments, Competitions & games, VR and artificial intelligence, Robotics, KG corner)

TEACHERS DAY

Stand tall, embrace the stars, It is enough for you to be proud to be a teacher

The school celebrated Teacher's Day, which falls on the twenty-fourth of February every year.

This celebration aimed to honor the teachers' noble status and appreciate the efforts they exert in order to build this country and elevate its generations towards achieving the goals of Oman's renaissance.

EVENTS

RAMADAN BREAKFAST FOR FEMALE STUDENTS

The communal Ramadan breakfast was organised at UPS as an initiative of the twelfth grade students, to extend the bonds of friendship and belonging between the students and their teachers. The breakfast was attended by a number of female staff members.

ALUMNI EVENING

Our graduates_you_are_our_pride

The Activities Department organised the first event of graduate reunion. This event involved all graduates of the UPS, starting from the first batch of 2015 until the eighth batch of 2022.

The Event idea stems from the keenness that the school attaches to its graduate children. This is to create an effective communication channel between them and the school, and to enhance the sense of belonging to UPS as well as strengthening their relationship with the school after graduation to benefit from each other's experiences, and create an opportunity for socialising and having interesting discussions among the graduates.

The slogan of this event was: Our Graduates_Our Pride A confirmation of our pride in UPS graduates.

GRADUATION CEREMONIES FOR THE ACADEMIC YEAR 2023/2022

happy
GRADUATION

KG GRADUATION CEREMONY

Under the auspices of Her Excellency Enginner Azzabint Suleiman Al Ismailia, former Minister of Technology and Communications, and the Executive Director of United Schools, and in the presence of several administrative principals and distinguished parents, the school celebrated the graduation of the fifteenth batch of preschool children. The ceremony included several sections that focused mainly on the concepts of values and citizenship.

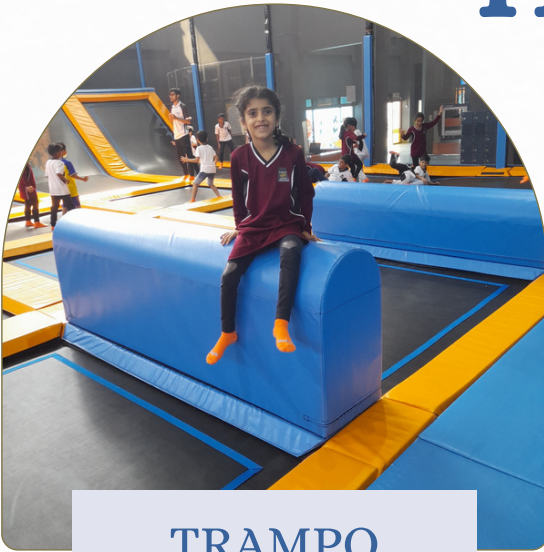

GRADE 12 GRADUATION CEREMONY

Under the auspices of Her Excellency Enginner Azzabint Suleiman Al Ismailia, former Minister of Technology and Communications, and the Executive Director of United Schools, and in the presence of several administrative principals and distinguished parents, The United Private Schools celebrated the graduation of the 9th batch of Grade 12 students for the academic year 2022-2023. The celebration was attended by the principals, the administrative and teaching staff, and the parents of students who expressed their joyful and fervent wishes for the school, its students, and its management for more success, and for the school to contribute outputs that serve the country and fulfill its aspirations under the wise leadership of His Majesty Sultan Haitham bin Tariq, may Allah protect and preserve him.

SCHOOL TRIPS

TRAMPO

BIDIYA CAMPING

Field trips and visits are of importance in developing learners because of their role in refining skills and promoting social responsibility. From this standpoint, the Activities Department is keen to organise many educational field trips and recreational trips in line with the needs of students and the desired outcomes.

TRAFFIC SCHOOL

FUN ZONE

SPORT ACTIVITIES

School sports have an important place and an educational dimension because it is one of the most important activities that students hold dear to their hearts. It is also a key factor in the formation of the rounded personality of students.

Following are the most prominent sports activities organised by the school sports department during this term:

CHESS TOURNAMENT

THE SCHOOL PARTICIPATED IN THE PRIVATE SCHOOLS CHESS CHAMPIONSHIP, WHICH WAS HELD AT DURAT AL KHALEEJ SCHOOL. OUR STUDENTS WERE DISTINGUISHED BY WINNING THREE MEDALS: A SILVER MEDAL AND TWO BRONZE MEDALS.

"A LITTLE BIT OF SPORT"

SPREADING SPORTS AWARENESS IN THE SCHOOL COMMUNITY, AND ADDING FUN TO THE SCHOOL DAY, WERE AMONG THE MOST IMPORTANT GOALS OF THE "A LITTLE BIT OF SPORT" ACTIVITY.

FRIENDLY MATCH BETWEEN UNITED GRADUATES AND UNITED STUDENTS

IN A COMPETITIVE ATMOSPHERE, UPS GRADUATES FROM PREVIOUS YEARS MET WITH THEIR FELLOW STUDENTS CURRENTLY ENROLLED THIS YEAR IN THEIR FIRST FRIENDLY MATCH ORGANISED BY THE SPORTS DEPARTMENT. THE MATCH ENDED WITH THE VICTORY OF THE GRADUATES TEAM.

THIRD SCOUT CAMP

WITHIN THE FRAMEWORK OF ACTIVATING THE PARTNERSHIP BETWEEN THE INSTITUTIONS OF THE WIDER COMMUNITY, AND ENHANCING THE INDIVIDUAL SKILLS OF SCOUTS, THE THIRD SCOUT CAMP WAS ORGANISED IN COOPERATION WITH THE AL-SEEB CLUB DIVISION

OUR VOLUNTEER CONTRIBUTIONS

THE RAMADAN BASKET PROJECT

"We abstain from happiness until you break your fast"

It is the slogan of the annual campaign for the Ramadan Basket Project, which is prepared during the month of Ramadan, with the support and generous donations of parents and students. The project targets needy families, in cooperation with Al-Rahma Charity Team

VOLUNTEER FIELD VISITS

" Life is sweet in your presence "

A slogan chosen by eleventh grade students for the voluntary open day event that was organised at Hams Al Atheer Center for people with special needs. This event aimed to strengthen the ties between UPS and the local community institutions.

The event included many entertaining competitions, as well as the distribution of gifts to the center's students in a joyful and benevolent atmosphere.

THE MONEY BOX OF GOODNESS FOR THE MONTH OF GOODNESS

This was the generous initiative of the fourth grade students. "My Money Box" project was implemented in the holy month of Ramadan. Students wanted to share part of their savings with their peers from less fortunate families.

We extend many thanks to the students for their generosity and to their parents for encouraging them to take such initiatives, which reinforce the meaning of giving and the value of participation.

ICT DEPARTMENT

Students Garner Multiple Awards and Show Remarkable Talent

United Private Schools, proved its mettle at the highly anticipated Leco Cup International competition held at GUTech on the 11th of May 2023. The event brought together top schools from Muscat and another competitive Iranian team, making it a true test of skill and determination. Our students rose to the challenge and showcased their remarkable talent, bringing home an array of prestigious awards.

Participating in four challenging categories, namely LecoMas (Abacus), LecoPol (Architecture bridge building), LecoLab (Science), and LecoRobo (Robotics), our students left an indelible mark on the competition. Their unwavering dedication and relentless efforts throughout the preparation process undoubtedly paid off.

In the LecoMas category, our school emerged triumphant, securing the coveted 1st Place. The LecoPol category also witnessed our students' brilliance, with our teams claiming both the 2nd and 3rd place positions. These achievements are a testament to the exceptional skills and knowledge possessed by our students.

A total of seven of our talented individuals walked away with well-deserved awards, leaving their mark on the event. Their commitment to excellence and their impressive performance make us immensely proud.

The Leco Cup International competition not only offered a platform for our students to demonstrate their capabilities but also served as a fun and enriching learning experience for everyone involved. It fostered healthy competition, encouraged teamwork, and provided an opportunity for our students to engage with peers from other schools.

As a school, we congratulate all the participants and extend our gratitude to the teachers, parents, and mentors who supported them throughout their journey. The achievements at the Leco Cup International competition reflect the collective effort of our school community.

We are immensely proud of our students for their outstanding achievements, and we encourage them to continue striving for excellence in all their endeavors.

Once again, congratulations to all the award winners and participants who made our school shine brightly at the Leco Cup International competition!

MATHS DEPARTMENT

Exploring Mathematical Excellence at United Private Schools

At United Private School, we are proud of our mathematical department's commitment to excellence. We strive to inspire a lifelong love for mathematics and equip our students with the skills and knowledge needed to excel in their academic and professional pursuits. Join us on this exciting mathematical journey, where imagination meets logic, and curiosity becomes the driving force for innovation.

Mr Mohamed Noor
Maths TAG

United Private School, a beacon of educational excellence, is dedicated to nurturing young minds and shaping future leaders. With a steadfast commitment to providing holistic education, our school is driven by a vision to empower students with knowledge, skills, and values that will propel them towards a successful and fulfilling future.

At United Private School, we believe that mathematics is more than just equations and calculations; it is a language that unlocks the mysteries of the universe. Our department offers a wide range of courses, catering to students of all levels and interests. From foundational concepts to advanced topics, our curriculum is designed to provide a well-rounded mathematical education.

Beyond the classroom, the mathematical department at United Private School offers opportunities for students to engage in mathematical exploration and competition. Our dedicated faculty members encourage participation in math clubs, contests, and local events, fostering a sense of camaraderie and igniting the spirit of healthy competition. These activities not only enhance students' problem-solving skills but also build their confidence and resilience.

ARABIC DEPARTMENT

GOALS OF ARABIC DEPARTMENT

One of the main goals that the Arabic Language Department works on is to contribute to the formation of an all-rounded personality for the students, so that they take initiative and be conscious and self-confident individual. We train them to be fluent and eloquent speakers, who express their thoughts and opinions in sound language and articulate style. We also enthuse them to become familiar with Arabic literature and have a taste for its aesthetic and appealing beauty. In order to achieve these goals, a group of our students participated in the poetry competition organised by the Ministry of Education. The group was nominated for the final rounds.

How wonderful it is to hear our students memorising the poems of Imru' al-Qais, Tarfa and Antarah, Al-Mutanabi and Abi Tammam as well as the poems of Mahmoud Darwish and Al-Shabi... Our students have become passionate about poetry, and we are determined to adopt this competition to become an annual tradition that we will observe.

ACTIVITIES OF ARABIC DEPARTMENT

The Arabic Language Department is open to all other departments. We participated in all events and activities, amongst which, the Omani Women's Day, the Omani Youth Day, the National Day and the STEM Festival. Our contribution was impressive, thanks to our team's dedication.

The department enjoys working closely with the MoE supervisors, who have always praised the accuracy and professionalism of the department. At the beginning of the second term we organised a workshop for teachers on self-development and developing critical thinking. We also enjoyed a presentation of a grammar model lesson.

Next academic year

The irreplaceable role of schools

“If schools did not exist, we would have needed to create them”; because they offer unique environments that ensure that everyone has the opportunity to fulfill their potential, learn how to face challenges, and acquire skills, knowledge, and ethics. The importance of educational institutions is no longer limited to teaching knowledge only. Schools should instill in their students curiosity and the desire to acquire knowledge, regardless of their age, and take upon themselves the responsibility of striving to develop and refine their personalities; Thus, building generations that are balanced intellectually and physically.

In this regard, our school seeks to provide opportunities for students to participate in various activities, which opens wide horizons for them to acquire life skills. Perhaps the most prominent of these activities, to be activated at the beginning of next year, is the preparation and organisation of the first session of the scientific conference led by students.

The first scientific conference led by students (Towards promising student leadership)

Goals

- Developing students' scientific research skills.
- Enriching the knowledge and skills of students in the specific topics of the conference.
- Preparing the student for educational, social and cultural interaction in scientific meetings.

Vision

Student leadership with national values and new frameworks that keep pace with the skills of the 21st century.

Mission

Investing students' energies in developing citizenship values and 21st century skills using scientific research methods.
